

## USMS COVID-19 Safety Plan Addendum

Until directed otherwise, all sanctioned events must complete this COVID-19 Safety Plan Addendum and email it to their LSMC sanctions chair in addition to completing the [standard sanction application on usms.org](#). Please copy [events@usmastersswimming.org](mailto:events@usmastersswimming.org) on correspondence so the National Office can gather comprehensive best practices and assist as needed.

### Guidance and Recommendations

#### Event Directors

- The event director is responsible for researching and abiding by all current applicable federal, state, local, and facility orders related to COVID-19, clearly communicating protocols in published event information, and providing email updates to attendees as needed.
- Per [CDC guidance](#) (updated July 28, 2021), at indoor facilities in [areas with substantial or high COVID-19 transmission levels](#), it is recommended that both vaccinated and unvaccinated attendees wear a mask covering the nose and mouth at all times except while swimming.
- Limit spectators and nonessential attendees.
- Limit bathroom access (swimmers arrive and leave in their suits).
- Limit hospitality (attendees should bring snacks, water, etc.). If food or drinks need to be provided, use individually wrapped or sealed containers in a grab and go setting.
- Space out seating areas and preassign to groups or individuals if possible. Encourage swimmers to avoid congregating behind the blocks before or after races, in the warmup pool, or to cheer from the side of the pool.
- Provide hand washing stations and hand sanitizer.
- Sanitize common areas and surfaces frequently.
- Publish results online only to avoid crowds at results posted on-site.
- To eliminate the need for meetings that typically are held in-person (for officials, safety personal, open water safety briefings, etc.) publish information in advance and/or organize virtual meetings via Zoom.
- Avoid or minimize post-event socials and awards ceremonies.
- For larger events, consider splitting the event into sessions to minimize the number of attendees at the venue at any given time.
- If you become aware of COVID-19 exposure (i.e., an attendee tests positive shortly after the event and could have exposed other attendees), communicate to all attendees through email or other possible means the possible exposure times and locations so attendees may determine if quarantining and/or testing are needed. [Here are positive test protocol recommendations](#) from the [Aquatics Coalition](#).
- Pool Meets:
  - Provide plenty of time between heats and events to avoid crowding behind the blocks.
  - Limit the number of swimmers allowed in each warmup lane to allow for physical distancing. Encourage swimmers to be flexible with their warmup routines and considerate of fellow swimmers.
  - Relays may be held if ample space for distancing and all other COVID-19 mitigation efforts can remain in place. Using only every other lane is a good way to provide additional space for relay swimmers.

#### Event Directors (continued)

- Open Water Races:
  - Avoid mass starts and use wave, time trial, or rolling starts instead to avoid crowding.

- Provide a receptacle for swimmers to discard masks as they enter the water and disposable masks for swimmers to wear as soon as they exit the water.

#### Officials and Timers

- The referee, starter, and stroke and turn officials should space out as much as feasible corresponding to various pool configurations.
- Sanitize any equipment before use (e.g., podium, microphone, etc.)
- Timers should keep ample space from the blocks at the start of the race and only move up to the pool's edge at the end of the race to stop their watch and/or push their button. Then they should move back to their original position.
- Consider using only one timer per lane.

#### COVID-19 Safety Plan Details (include additional pages as needed). Describe plans for each protocol as applicable for your area and venue.

Current applicable federal, state, local, and facility orders regarding size of gatherings, other COVID-19 protocols, etc. (include links where appropriate)
<a href="#">Edwardsville School District recommends that staff, students and visitors wear a mask while in school district facilities, but masks are not currently required; will comply with facility, local, state and federal guidelines in place on the event day, June 4, 2022.</a>
Venue cleaning protocols for before, during, and after the event
<a href="#">The school disinfects all "high touch" surfaces on a nightly basis. Hand sanitizer will be available at check in and at several locations on the pool deck.</a>
Face-covering requirements and enforcement
<a href="#">All swimmers are recommended to wear masks except when actively swimming. All officials, coaches and spectators are recommended to wear masks at all times. All spectators should socially distance themselves in the stands and are not allowed on the pool deck.</a>
Modifications to registration and check-in area and process
<a href="#">Registration will occur online prior to the swim meet. Swimmers will socially distance as they check in prior to the meet. All swimmers will be verbally screened for Covid-19 symptoms at check in. When registering for the meet, each swimmer will electronically agree to the Covid-19 protocols in place for the meet.</a>

<b>Warm-up social distancing requirements and enforcement</b>
<u>During warm-up and warm-down, meet participants will be asked to limit the number of swimmers to 6 per lane. Swimmers will not congregate at the ends of the pool and will immediately exit the pool when they are done swimming. During the meet swimmers will be required to enter the warm up lanes on the opposite side of the pool from the starting area.</u>
<b>Venue facilities that are available and off-limits to participants</b>
<u>Swimmers may arrive to the pool wearing their swim suits; full access to the locker rooms will be allowed, but swimmers will be asked to socially distance themselves in the locker rooms.</u>
<b>Swimmer requirements for races (entering and exiting the water)</b>
<u>Swimmers will be asked to remain in their seats until the swimmers in the heat before them have gotten on the blocks; at that point they may stand behind the blocks and make final preparations for their race. Officials will provide ample time for the swimmers to prepare before starting each heat. Timers will be limited to 1 per lane, with alternate timers at the sides of the pool.</u>
<b>Other participant interaction modifications (awards, results, etc.)</b>
<u>There will not be any awards for the meet. Results will be posted at the pool, swimmers will be asked to socially distance themselves while viewing results and should take a digital/phone picture rather than congregate.</u>
<b>Post-event notification protocol, in the event that an attendee subsequently tests positive for COVID-19</b>
By entering the meet and signing the USMS participant waiver, swimmers agree to immediately notify the Meet Director if they discover they have been exposed to a suspected or positive case of COVID-19 or have tested positive for COVID-19. Meet participants <u>will be notified by email if an attendee tests positive after the meet.</u>
