

USMS COVID-19 Safety Plan Addendum

For the 2022 Wis Masters LCM State Champs at Schroeder, June 18, 2022

Until directed otherwise, all sanctioned events must complete this COVID-19 Safety Plan Addendum and email it to their LSMC sanctions chair in addition to completing the [standard sanction application on usms.org](#). Please copy events@usmastersswimming.org on correspondence so the National Office can gather comprehensive best practices and assist as needed.

Guidance and Recommendations

Event Directors

- The event director is responsible for researching and abiding by all current applicable federal, state, local, and facility orders related to COVID-19, clearly communicating protocols in published event information, and providing email updates to attendees as needed.
- Per [CDC guidance](#) (updated July 28, 2021), at indoor facilities in [areas with substantial or high COVID-19 transmission levels](#), it is recommended that both vaccinated and unvaccinated attendees wear a mask covering the nose and mouth at all times except while swimming.
- Limit spectators and nonessential attendees.
- Limit bathroom access (swimmers arrive and leave in their suits).
- Limit hospitality (attendees should bring snacks, water, etc.). If food or drinks need to be provided, use individually wrapped or sealed containers in a grab and go setting.
- Space out seating areas and preassign to groups or individuals if possible. Encourage swimmers to avoid congregating behind the blocks before or after races, in the warmup pool, or to cheer from the side of the pool.
- Provide hand washing stations and hand sanitizer.
- Sanitize common areas and surfaces frequently.
- Publish results online only to avoid crowds at results posted on-site.
- To eliminate the need for meetings that typically are held in-person (for officials, safety personal, open water safety briefings, etc.) publish information in advance and/or organize virtual meetings via Zoom.
- Avoid or minimize post-event socials and awards ceremonies.
- For larger events, consider splitting the event into sessions to minimize the number of attendees at the venue at any given time.
- If you become aware of COVID-19 exposure (i.e., an attendee tests positive shortly after the event and could have exposed other attendees), communicate to all attendees through email or other possible means the possible exposure times and locations so attendees may determine if quarantining and/or testing are needed. [Here are positive test protocol recommendations](#) from the [Aquatics Coalition](#).
- Pool Meets:
 - Provide plenty of time between heats and events to avoid crowding behind the blocks.
 - Limit the number of swimmers allowed in each warmup lane to allow for physical distancing. Encourage swimmers to be flexible with their warmup routines and considerate of fellow swimmers.
 - Relays may be held if ample space for distancing and all other COVID-19 mitigation efforts can remain in place. Using only every other lane is a good way to provide additional space for relay swimmers.

Event Directors (continued)

- Open Water Races:
 - Avoid mass starts and use wave, time trial, or rolling starts instead to avoid crowding.
 - Provide a receptacle for swimmers to discard masks as they enter the water and disposable masks for swimmers to wear as soon as they exit the water.

Officials and Timers

- The referee, starter, and stroke and turn officials should space out as much as feasible corresponding to various pool configurations.
- Sanitize any equipment before use (e.g., podium, microphone, etc.)
- Timers should keep ample space from the blocks at the start of the race and only move up to the pool's edge at the end of the race to stop their watch and/or push their button. Then they should move back to their original position.
- Consider using only one timer per lane.

COVID-19 Safety Plan Details (include additional pages as needed). Describe plans for each protocol as applicable for your area and venue.

Current applicable federal, state, local, and facility orders regarding size of gatherings, other COVID-19 protocols, etc. (include links where appropriate)

In **Milwaukee County, Wisconsin**, as of 2/24/22, community level is **High**.

- Wear a mask indoors in public
- Stay up to date with COVID-19 vaccines
- Get tested if you have symptoms
- Additional precautions may be needed for people at high risk for severe illness

At one time, the pool was restricted to less than 175 persons. The meet is expected to have between 45-75 swimmers and combined with meet officials, timers and spectators will still be under 175 people.

Venue cleaning protocols for before, during, and after the event

Venue is cleaned and sanitized regularly.

Face-covering requirements and enforcement

Masks are recommended but not mandated, thanks to a republican controlled legislature that has their head in the sand and the governor has been sued by them for taking public health measures.

I guess if their heads are in the sand, they don't need masks.

Modifications to registration and check-in area and process

	<u>All registration is electronic. Only check-in event is 800 freestyle which will be during the meet operations and no special requirements are necessary.</u>
	Warm-up social distancing requirements and enforcement
	<u>Participants will be responsible for social distancing during warmups and following all rules from the rule book.</u>
	Venue facilities that are available and off-limits to participants
	<u>Locker rooms and pool areas are available to all participants who wish to use them.</u>
	Swimmer requirements for races (entering and exiting the water)
	<u>Swimmers are expected to observe social distancing. Depending on number of participants, relays will be seeded to alternate lanes. In other words, Heat 1 will use lanes 1,3,5,7 for competition and heat 2 will use lanes 2,4,6. There is no change to the rules for entering and exiting the water.</u>
	Other participant interaction modifications (awards, results, etc.)
	<u>Results will be posted but Meet Mobile will be receiving results as the meet progresses. No changes to posting results.</u>
	Post-event notification protocol, in the event that an attendee subsequently tests positive for COVID-19
	<u>All participants will be notified by email.</u>
