

USMS COVID-19 Safety Plan Addendum

Until directed otherwise, all sanctioned events must complete this COVID-19 Safety Plan Addendum and email it to their LSMC sanctions chair in addition to completing the [standard sanction application on usms.org](#). Please copy events@usmastersswimming.org on correspondence so the National Office can gather comprehensive best practices and assist as needed.

Guidance and Recommendations

Event Directors

- The event director is responsible for researching and abiding by all current applicable federal, state, local, and facility orders related to COVID-19, clearly communicating protocols in published event information, and providing email updates to attendees as needed.
- Per [CDC guidance](#) (updated July 28, 2021), at indoor facilities in [areas with substantial or high COVID-19 transmission levels](#), it is recommended that both vaccinated and unvaccinated attendees wear a mask covering the nose and mouth at all times except while swimming.
- Limit spectators and nonessential attendees.
- Limit bathroom access (swimmers arrive and leave in their suits).
- Limit hospitality (attendees should bring snacks, water, etc.). If food or drinks need to be provided, use individually wrapped or sealed containers in a grab and go setting.
- Space out seating areas and preassign to groups or individuals if possible. Encourage swimmers to avoid congregating behind the blocks before or after races, in the warmup pool, or to cheer from the side of the pool.
- Provide hand washing stations and hand sanitizer.
- Sanitize common areas and surfaces frequently.
- Publish results online only to avoid crowds at results posted on-site.
- To eliminate the need for meetings that typically are held in-person (for officials, safety personal, open water safety briefings, etc.) publish information in advance and/or organize virtual meetings via Zoom.
- Avoid or minimize post-event socials and awards ceremonies.
- For larger events, consider splitting the event into sessions to minimize the number of attendees at the venue at any given time.
- If you become aware of COVID-19 exposure (i.e., an attendee tests positive shortly after the event and could have exposed other attendees), communicate to all attendees through email or other possible means the possible exposure times and locations so attendees may determine if quarantining and/or testing are needed. [Here are positive test protocol recommendations](#) from the [Aquatics Coalition](#).
- Pool Meets:
 - Provide plenty of time between heats and events to avoid crowding behind the blocks.
 - Limit the number of swimmers allowed in each warmup lane to allow for physical distancing. Encourage swimmers to be flexible with their warmup routines and considerate of fellow swimmers.
 - Relays may be held if ample space for distancing and all other COVID-19 mitigation efforts can remain in place. Using only every other lane is a good way to provide additional space for relay swimmers.

Event Directors (continued)

- Open Water Races:

- Avoid mass starts and use wave, time trial, or rolling starts instead to avoid crowding.
- Provide a receptacle for swimmers to discard masks as they enter the water and disposable masks for swimmers to wear as soon as they exit the water.

Officials and Timers

- The referee, starter, and stroke and turn officials should space out as much as feasible corresponding to various pool configurations.
- Sanitize any equipment before use (e.g., podium, microphone, etc.)
- Timers should keep ample space from the blocks at the start of the race and only move up to the pool's edge at the end of the race to stop their watch and/or push their button. Then they should move back to their original position.
- Consider using only one timer per lane.

COVID-19 Safety Plan Details (include additional pages as needed). Describe plans for each protocol as applicable for your area and venue.

Current applicable federal, state, local, and facility orders regarding size of gatherings, other COVID-19 protocols, etc. (include links where appropriate)
Virginia Executive Order 79: https://www.governor.virginia.gov/media/governorvirginiagov/executive-actions/EO-79-and-Order-of-Public-Health-Emergency-Ten-Ending-of-Commonsense-Public-Health-Restrictions-Due-to-Novel-Coronavirus(COVID-19).pdf
Venue cleaning protocols for before, during, and after the event
The pool is constantly being sanitized by Chlorine and Ozone. Before and after each session, touched surfaces (bleachers, handles, etc) will be sanitized. Upon entrance, athletes will be required to use hand sanitizer or wash hands using soap and water.
Face-covering requirements and enforcement
Face coverings will be required for all athletes, coaches, volunteers, and officials. There will be an assigned meet marshal for mask enforcement. Should the meet directors deem a need for more meet marshals based on registration numbers, more will be assigned.
Modifications to registration and check-in area and process
Participants will check in at the front desk before entering the facility. Only individuals registered to swim, volunteers, officials, and coaches in the session will be permitted into the facility. No spectators will be allowed.
Warm-up social distancing requirements and enforcement
A maximum of 5 swimmers per lane will be required: 1 at each wall, 1 under each set of flags, and 1 in the center of the pool. Diagrams will be posted for swimmers and coaches to understand before swimming. All swimmers in a lane will be expected to complete similar warm-ups to prevent unnecessary exposure.
Venue facilities that are available and off-limits to participants
There are 2 classrooms and 1 large multipurpose room that will be unavailable to participants for the duration of the meet. The remainder of the facility, including at least a portion of the warm-up and cool down pool will be available.

Swimmer requirements for races (entering and exiting the water)
After the referee blows a series of short whistles, participants will remove their masks and place them on hooks located behind the blocks. After finishing the race, athletes will put their mask on before proceeding. The posted meet marshal will stop individuals attempting to proceed without a mask.
Other participant interaction modifications (awards, results, etc.)
Awards will not be provided. Results will be posted online for individuals to view to prevent gathering around posted results inside the facility.
Post-event notification protocol, in the event that an attendee subsequently tests positive for COVID-19
In the event that the meet hosts are notified of an attendee testing positive after the conclusion of the meet, the designated point of contact for each club attending and all unattached athletes will be notified. Should Prince William Health District or Virginia Department of Health contact meet hosts requesting assistance in contact tracing, full support will be provided.
