

Excluding Specified Events from a Results Export File

In this example, Events 1, 2, 3, 4, 21, and 22 should not be included in the results that are uploaded to the USMS database. Events 1 through 4 were open water events. Events 21 and 22 were “fun” events where the participants wore fins.

The screenshot shows the 'Events' window in the software. The window title is 'Events'. The menu bar includes: Layout, Add, Edit, Delete, Combined Events, Sessions, Comments, Re-Number, Copy, Clear Indicators, Records, Sta. Below the menu bar is a toolbar with various icons. There are several filter options: Gender (All, Male, Female, Mixed), Age Range (Indiv + Relays, Indiv Only, Relays Only), and Event Type (All Events, Standard Only, Open Water, Time Trial Only, Swim-Off Only, Disability Only). Below the filters is a table of events. Event 22 is highlighted in blue. A yellow callout box points to the 'Edit' menu item in the top menu bar and the highlighted row for Event 22. The callout box says: 'Highlight the line for the event you wish to change (in this case, Event 22 is highlighted) then select "Edit" from the top menu'.

Evt #	Status	Gender	Age Group	Distance	Stroke	Entry Fee	Rnds	Finals Setup	Lanes	Type

This is Event #1. Change the "Event Type" from Open Water to Swim-Off Event

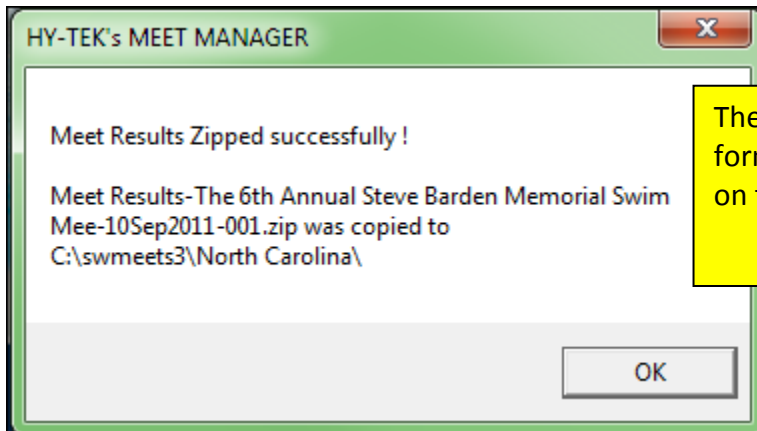

Choose "File >> Export >> Results for Team Manager..."

UNCHECK the "Swim-off Events" box. The events that we previously marked as Swim-off events will not be included in the results file.

The file export is done

The file has been created (in .zip format) and is ready to be saved on the user's computer
