Sending an email message to your LMSC members or to a club's members

The online registration software allows a registrar to easily send email messages to members of the LMSC. The messages may be sent to all members, or to selected subgroups of members (such as all members of a specified club).

Selecting Recipients

First, decide to whom the message will be sent, the subject of the message, and to whom you want the replies to be directed.

Email Subject News from the New England LMSC		Send To New England I	MSC	Email From New England LMSC <neregistrar@usms.org></neregistrar@usms.org>
Reply To Add a valid email for members to reply to. NERegistrar@usms.org	Registration Status Last Year Registered: ✓ 2013 2012 2011 2010 2009 2008 2007 2006 2005 2004 2003	Gender © Both © Male © Female	der Both Alale Female Optional Includes Image: Send a copy to the Registrar Image: Send a copy to the National Office	

Reply To: The message will be sent with the "From" address listed as New England LMSC, NERegistrar@usms.org. Sometimes, if the registrar is sending the message on behalf of someone else (such as the LMSC's chair), it makes sense for replies to be directed to that person. You can enter a "Reply To" address so that any replies to the sent message are directed to that address.

Registration Status: Select the last year registered for those you wish to receive the email. This feature is useful if you want to send a message to non-current members (such as a renewal reminder).

Gender: You can choose to restrict the message to be sent to members of one gender, or both.

You can choose to send your message to members of your entire LMSC (the default), or you can limit it to one or more clubs.

If you want to send it only to members of the New England Patriots club, just select it from the list so that it moves into the right-hand column:

You can do the same thing with workout groups. The default is "all;" you can restrict it by selecting the desired workout group from the list so that it moves into the right-hand column:

Composing the message

Here is the message composition screen.

Note the list of "**available tags**." This is a powerful feature that allows you to utilize the USMS registration database to customize the message that you are sending. Any time a tag is included, that data is pulled from the database and uniquely inserted into each individual message.

For example, if you use the [[First Name]] tag as shown in the illustration, each message will be populated with the recipient's first name (as pulled from the database).

NOTE that the tag names are case-sensitive and must be typed with upper- and lower-case letters exactly as shown.

The following table provides an example of how each tag behaves, and the result it produces, in the final email message:

Tag	Result in the email message
[[Permanent ID]]	09017
[[First Name]]	Speedo
[[MI]]	Z
[[Last Name]]	Grilli
[[Full Name]]	Speedo Z Grilli
[[BirthDate]]	1991-04-07
[[Address1]]	123 Dogwood Ln
[[City]]	Londonderry
