# **A USMS National Long Distance Championship**

Lake Thoreau, Reston, VA / Sunday, May 25, 1997

RESULTS

## May 25, 1997 Two Mile Open Water National Championship History Lake Thoreau, Reston, VA

The water temperature of the race was 68 degrees which was within the advertised temperature of 68-72 degrees. The weather was cool and it was raining. Due to the colder temperature there was not a higher percentage of wetsuit wearers.

The race was moved on Thursday, May 22, from Lake Audubon to Lake Thoreau, about two miles away, due to a serious fish kill in Lake Audubon. Although some biologists thought that it would not be a problem, the site was moved since besides fish, muskrats and raccoons were killed too.

A ¼ mile course had to be put in because a ½ mile course wouldn't fit in the lake. It was still different from the 2-mile cable race in Charlottesville because there was a dog-leg in the middle of the course. The on-land logistics at Lake Thoreau weren't quite as good as Lake Audubon, since there was less room and the entry into the lake was a little steep.

There was one problem with the scoring during the second heat. Right at the end of the heat it started to rain really hard, and the computer operator who was taking times as swimmers crossed the finish line shut off the computer. All the times of the second heat were lost, but there was a chronomix as a backup and the lost times were typed in. Total delay was 20-30 minutes
